**“STRIVING for
an A+
SCORE of 2400!”**

☑ 2010 SPRING SATs Individualized Prep. COURSES

EXPERT SAT and SAT Subject Test Instruction is now available for the May and June Test Dates. Learn how the tests are designed, types of questions, guessing strategies, how the scoring works, etc. Raise your scores by studying specific “hot vocabulary” lists and focusing on “vital math” questions and “logic strategies.” Lots of practice with actual “grammar questions” and “essay topics” assure the best results! You can prepare for whichever test(s) you need to take.

Our Individualized programs for the SAT and SAT Subjects Tests are very popular. For the Math Level I and II and Literature are covered extensively. Based on student selection and chosen focus history, foreign languages and science Subject Tests are discussed at length. Students learn how to think critically and become better test-takers while reviewing important content and proven-to-work strategies!

Our popular MOCK exams provide supplemental practice to improve scores! *Group Classes below are taught by Jennifer Valdman, M. Ed., a Test Prep. Expert with over 25 years of experience preparing students for the SATs, GRE, CBEST, ISEE, LSAT and many other exams! Prep. is also assistant taught by staff trained/supervised specifically by Jennifer Valdman!*
